EDUCATION

BSc. in Computer Science and Engineering

BRAC UNIVERSITY

📅 2016 – 2020 📍 Dhaka, Bangladesh

CGPA - 3.54 out of 4

EXPERIENCE

System Engineer (Model Backend Lead)

Talbot Underwriting Limited

📅 December 2022 – Ongoing 📍 London, United Kingdom

Significant Contribution:

- Manage a team of 6 developers to build and design software for several risk models
- Collaborate with Business Analysts to develop software requirements and specifications
- Perform code reviews and Mentorship to ensure adherence.

Software Engineer (Lead)

PRmax Limited

📅 June 2022 – December 2022 📍 London, United Kingdom

Significant Contribution:

- Lead Engineering team, Design Sprint and maintain Agile SDLC.
- Analyze requirements, design and deploy services.
- Cron and Daemonize for automation, reporting and monitoring.

Software Engineer

UPAY (UCB Fintech Company Ltd)

📅 December 2021 – April 2022 📍 Dhaka, Bangladesh

Significant Contribution:

- Reduced transaction time from 1s to 300ms by implementing pub-sub model using NATS (nats-py).
- Optimized APIs and DB queries (ORM) using distributed caching.
- Implemented several APIs and services using Django and DRF while integrating them in a containerized Microservice System.

Software Engineer

Go Zayaan Limited

📅 March 2020 – December 2021 📍 Dhaka, Bangladesh

Significant Contribution:

- Developed Backend system using Django and DRF while using Elastic Search to fasten the API responses to 700ms.
- Developed asynchronous APIs using distributed MQ (Celery)
- Designed and integrated different payment gateways.

PROFILE

I am interested in large-scale software and have certain expertise in Building highly secured, scalable, and consistent modern distributed systems. Working primarily on back-end technologies, I am disposed to provide something state-of-the-art not only to the science community but also to the business domain through my leadership and diligence.

SKILLS

Software and System Engineering

- Manage and Build Engineering team ready to build and deliver highly productive and innovative software solutions.
- Design, Lead and Deliver Agile SDLC
- Design Microservices, Monolithic, Distributed and Decentralized Systems.
- Design, Lead and Build Highly Scalable, Optimized and Secured Software Systems
- Usage of Load Balancing, Elastic Search, MQ, Cryptography, Pub-Sub, Task Scheduling, Signal, Transaction and Caching
- Implementing Payment Gateways, Financial Systems and Transaction Validation.
- Django, DRF, Flask, FastAPI, React
- Database Design, Optimization with ORM, RDBMS and No-SQL (MongoDB, Firebase)
- Git, Docker, Kubernetes, GCP, AWS, Azure
- Expertise In Complex Data Structure and Algorithms

Data Science

Expert in:

- Design AI system and Model Pipeline as per Business requirements and needs.
- Deploy AI System in production.
- Build ML and DL algorithms from scratch.
- Data Pre-processing, creating Data and Model Pipelines, EDA, Graph Analytics.
- Specialized in Deep Learning Frameworks such as Tensorflow, Keras, PyTorch.
- Scikit-learn, Numpy, Pandas, Matplotlib, Seaborn, NetworkX, OpenCV, Pillow, SpaCy, NLTK, Nilearn, Hadoop and Spark.

PROJECTS

Development Projects :

PRmax System
